BEHAVIORAL SCIENCE BOOK SERVICE
P.O. Box 1111
Riverside, New Jersey 08075

Psychoanalysis, Psychiatry and Psychotherapy

The Psychoanalytic Revolution/The Structure and Meaning of Psychoanalysis (71790) *A Dual Selection*

Marthe Robert's brilliant biography of Freud: his personality, the growth of his ideas, and his position in the intellectual tradition of the 19th century. *Plus* the long-out-of-print classic on the early development of psychoanalytic concepts.

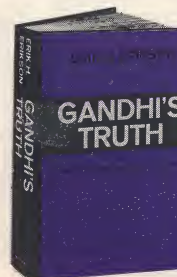

Retail price \$11.45 Member's price \$8.25

The Use of LSD in Psychotherapy and Alcoholism (85710) *Edited by Harold A. Abramson, M.D.*

Fifty outstanding doctors, scientists, and psychiatrists present their meaningful research findings and experiences with the therapeutic applications of LSD.

Retail price \$17.50 Member's price \$11.50

Gandhi's Truth (50240) *By Erik H. Erikson*

A landmark in psychobiography, a study of the nature of violence, and a further contribution to the psychology of identity. Readers will be intrigued with the Freudian overtones of this unusual approach to Gandhi and the psychological roots of the development of his concepts of militant nonviolence.

Retail price \$10.00 Member's price \$7.50

The Broad Scope of Psychoanalysis: Selected Papers of Leopold Bellak *Edited by Donald P. Spence* (36890)

A rewarding picture of a rich intellect probing such topics as: the relationships among experimental psychology, clinical psychoanalysis, and psychiatry; schizophrenia; the emotions involved in reading a detective story; and the personality of Somerset Maugham.

Retail price \$14.75 Member's price \$9.75

Pursuit of Agreement: Psychiatry and The Law (73190) *By Jonas B. Robitscher, J.D., M.D.*

Keen, illuminating analysis of the conflicts between law and psychiatry as well as a masterly reconciliation of the differences between the two points of view. "Well written and highly informative . . . a valuable contribution."—*Manfred S. Guttmacher, M.D.*

Retail price \$8.00 Member's price \$6.25

The Technique and Practice of Psychoanalysis, Volume 1 (82500) *By Ralph R. Greenson, M.D.*

A highly lucid, systematic presentation of the general principles of psychoanalytic technique, concentrating on the fundamentals of transference and resistance. "This promises to be the definitive work on psychoanalytic technique."—*Journal of the American Psychoanalytic Association*

Retail price \$12.50 Member's price \$9.25

Death in Life (41890) *By Robert Jay Lifton, M.D.*

A wide-ranging "psychohistorical" study of the survivors of the bombing of Hiroshima. Lays out the elements of a general theory of the psychology of survivors . . . an impressive trail-breaking contribution."—*Jerome D. Frank, M.D.*

Retail price \$10.00 Member's price \$7.50

Marriage and Personal Development *By Rubin Blanck and Gertrude Blanck* (60590)

A sound analysis of the marital relationship, from the perspective of ego psychology. Following Erikson, the authors view marriage as a developmental stage in the life cycle. "A book on marriage and marital counseling that is eminently worth reading."—*Erwin Singer*

Retail price \$6.00 Member's price \$5.25

The Theory and Practice of Psychiatry

By Fredrick C. Redlich and Daniel X. Freedman (83700)

"A psychiatric classic . . . Redlich and Freedman have successfully performed the herculean service of integrating the disparate domains of psychiatry into an ordered and logical synthesis—comprehensive in scope, penetrating in depth."—Douglas D. Bond, M.D.

Retail price \$12.50 Member's price \$8.95

Massive Psychic Trauma (60630)

Edited by Henry Krystal, M.D.

Comprehensive presentation of clinical findings and theoretical formulations relating to the traumatic effects on personality of having experienced brutalizing events. Deals mainly with the survivors of Nazi extermination camps. Includes fascinating case material.

Retail price \$10.00 Member's price \$7.75

The Dream in Psychoanalysis (42480)

By Leon L. Altman, M.D.

A practical guide to the use of the dream as a clinical instrument in psychoanalysis. "A first-rate and genuine contribution. I believe that it will serve a real need. . . It is extremely lucid and well written."—Charles Fisher, M.D.

Retail price \$7.50 Member's price \$6.25

The Mirages of Marriage (62720)

By William J. Lederer and Don D. Jackson

This incisive, original analysis of marriage in America discusses the false assumptions on which many marriages are based, the reasons for their frequent failure, and the major ingredients of a satisfactory marital relationship. Redefines the husband-wife partnership through the application of modern systems theory.

Retail price \$7.95 Member's price \$6.50

The History of Psychiatry (53180)

By Franz G. Alexander and Sheldon T. Selesnick

An authoritative, dynamic account of the men, movements, and events that have influenced the direction and character of psychiatry. The authors trace the fight against mental illness from prehistoric times to the present. "This excellent book . . . tells us a lot about the mind as it has been variously seen in the past."—Robert Coles, M.D.

Retail price \$11.95 Member's price \$7.50

Aspects of Internalization (34400)

By Roy Schafer

This major contribution to psychoanalytic ego psychology explores and further systematizes the theory of internalization, identification, introjection, and incorporation. "An original and closely reasoned work."—Fred Pine, Albert Einstein College of Medicine

Retail price \$6.50 Member's price \$5.50

The Person in Psychology (68120)

By Gordon Allport

Allport's final testament; a collection of the great psychologist's papers of recent years—selected, introduced, and edited by him shortly before his death. His intense concern with the deeper meanings of individuality is demonstrated in application to new problems. Contains an illuminating autobiographical sketch.

Retail price \$9.95 Member's price \$7.50

Schizophrenia and the Need-Fear Dilemma (75330)

By Donald L. Burnham, Arthur I. Gladstone and Robert W. Gibson

A highly insightful study of the significance of interpersonal relationships in schizophrenia. Argues that disordered object relations in infancy and childhood interfere with normal development, predisposing the individual to schizophrenic disorganization.

Retail price \$12.00 Member's price \$8.95

Approaches to Cross-Cultural Psychiatry (34270)

Edited by J. M. Murphy and A. H. Leighton

Specialists in psychiatry, general medicine, anthropology, sociology, and social work report on the search for ways of identifying the mentally ill in other cultures and of isolating the sociocultural factors that influence psychiatric disorders.

Retail price \$9.75 Member's price \$7.25

The Borderline Syndrome (36810)

By R. R. Grinker, B. Werble, R. C. Drye

Presents the first results of a research program on the "borderline syndrome," defining its characteristics in process or ego-functions terms. "A landmark for those who seek the integration of behavioral science and clinical science."—Daniel X. Freedman, M.D.

Retail price \$7.95 Member's price \$6.50

The Triumph of the Therapeutic/ The Modes and Morals of Psychotherapy (84790)

A Dual Selection

Philip Rieff's provocative critique of psychoanalysis and its impact on our culture, morality and faith. Plus Perry London's brilliant assault on psychiatric complacency—on the traditional view that the therapist must be "morally neutral" with his patient.

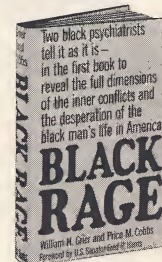

Retail price \$14.45 Member's price \$7.95

Schizoid Phenomena, Object Relations and the Self (75370)

By Harry Guntrip

Lucid, vivid account of the clinical and theoretical aspects of the schizoid problem. Emphasizes the role of object relations in the formation of personality, both in its inner reality and social relationships.

Retail price \$10.00 Member's price \$7.75

Black Rage (36440)

By William H. Grier, M.D. and Price M. Cobbs, M.D.

The first book to reveal the full dimension of the inner conflicts and the desperation of the black man's life in America. Written by two black psychiatrists, this eloquent book represents "an urgent and moving account of what it means psychologically to be a Negro in our society."—Paul Roazen

Retail price \$5.95 Member's price \$5.25

The Id and the Regulatory Principles of Mental Functioning/Introduction to the Psychoanalytic Theory of the Libido

A Dual Selection (54450)

Max Schur's examination of the id, in which he formulates an integrated conception of id operations. Plus Richard F. Sterba's long-out-of-print classic on libidinal phenomena and their dynamic influence in normal and pathological behavior.

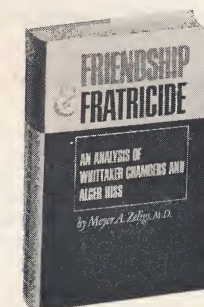

Retail price \$10.00 Member's price \$6.95

The Intrapsychic Self (56810)

By Silvano Arieti, M.D.

A major work of remarkable scope and depth by the editor of *American Handbook of Psychiatry*. "This is a work which may easily prove to be a turning point in contemporary psychology and psychiatry."—Ludwig von Bertalanffy

Retail price \$12.50 Member's price \$8.95

Friendship and Fratricide (48900)

By Meyer A. Zelig, M.D.

A penetrating, continuously fascinating study of the Hiss-Chambers case which brilliantly applies psychoanalytic insights to the lives and personalities of the protagonists. A superb example of psychobiography and a revealing analysis of the most puzzling political-legal case in recent American history.

Retail price \$8.95 Member's price \$6.95

Systems of Psychotherapy (81880)

By Donald Ford and Hugh Urban

A comparative analysis of ten major psychotherapy systems that places each in its most illuminating conceptual framework. Documented with an extraordinary grasp of basic research and clinical theories.

Retail price \$11.95 Member's price \$7.95

The Basic Fault: Therapeutic Aspects of Regression (35580)

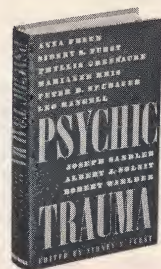

By Michael Balint

A sensitive, explicit presentation of regression as a therapeutic technique—its dynamics, strengths, pitfalls—for the correction of the "basic fault:" the lack of primary love between mother and child. Reevaluates the efficacy of the classical analytic approach to the deeply disturbed patient for whom regression is indicated.

Retail price \$6.00 Member's price \$5.25

Freud: Political and Social Thought
By Paul Roazen (48910)
Examining at once the relevant aspects of Freud's life and writings, this ground-breaking new book discusses the significance of Freudian material to understanding the political and social order. "A thorough statement of the propositions articulated by Freud concerning the political and social process."—*Harold D. Lasswell*
Retail price \$6.95 Member's price \$5.75

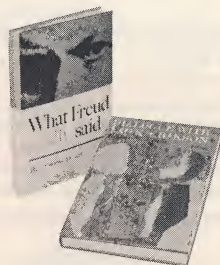

The Therapeutic Relationship and Its Impact (84120)
Edited by Carl Rogers
Analyzes the findings of an ambitious study on whether the same qualities of the psychotherapeutic relationship that have proven effective in dealing with neurotics would have any measurable effect on schizophrenics.
Retail price \$12.50 Member's price \$8.95

Psychic Trauma (71210)
Edited by Sidney S. Furst, M.D.
Eight eminent clinicians examine the history of the concept of psychic trauma—from Freud to the present—and our current understanding of the dynamics involved. The first comprehensive book on the subject. "Much important ground has been covered by the chapters in this book."—*Anna Freud*
Retail price \$6.95 Member's price \$5.75

The Complete Introductory Lectures on Psychoanalysis (39840)
By Sigmund Freud
Translated and Edited by James Strachey
For the first time in a single volume, both *The Introductory* and *The New Introductory Lectures on Psychoanalysis*. This definitive edition authoritatively covers Freud's most seminal writings.
Retail price \$12.50 Member's price \$10.00

Crosscurrents in Psychiatry and Psychoanalysis (41240)
Edited by Robert W. Gibson, M.D.
"One cannot read these pages without being stirred to reconsider many of one's ideas... they reflect the dynamic approach that psychoanalysis brought to psychiatry along with a healthy inquiry into contributions from other fields."—*Lewis L. Robbins, M.D.*
Retail price \$7.50 Member's price \$5.95

What Freud Really Said/Dialogue With Erik Erikson (86810)
A Dual Selection
David Stafford-Clark's expert summary of the heart of Freud's theories, a trustworthy appraisal of the main clinical principles of Freud's work. Plus Erik Erikson discusses his life's work, concentrating on his conception of *The Eight Stages of Man*.
Retail price \$9.45 Member's price \$7.25

Interaction in Families (55910)
By Elliot G. Mishler and Nancy E. Waxler
An important research study investigating the extent to which family patterns are related to the occurrence of schizophrenia in childhood. "Adds a new dimension to experimental design and research in the area of family dynamics."—*Marriage Counseling Quarterly*
Retail price \$11.95 Member's price \$7.95

The Faith of the Counsellors (48080)
By Paul Halmos
A controversial examination of the beliefs underlying the practice of counseling. Argues that the counselor proceeds not from scientific facts or principles, but from an emotional belief in the healing power of love. "Original and stimulating."—*Family Life*
Retail price \$6.00 Member's price \$5.25

Psychoanalytic Techniques (72200)
Edited by Benjamin B. Wolman
A comprehensive, authoritative volume describing the diversified techniques of modern psychoanalysis. This unique collection of original papers by leading representatives of the foremost psychoanalytic schools brings together orthodox Freudians, reformers, and dissidents.
Retail price \$15.00 Member's price \$9.95

Psychiatry and the Community in Nineteenth-Century America (71150)
By Ruth B. Caplan
This fascinating, informative study—the first full-scale history of mental health treatment as it emerged from the "dark ages" of isolation and neglect—demonstrates the recurring concern with the effect of environment on mental disorder, and broadens our perspective of contemporary therapeutic applications.
Retail price \$10.00 Member's price \$7.50

The Conditioning Therapies (40140)
Edited by Wolpe, Salter and Renya
An introduction to the challenging and exciting conditioning, or behavior, therapies—the laboratory principles on which they are based, the techniques used, and the differences between this approach and that of psychoanalysis.
Retail price \$8.50 Member's price \$5.95

Psychoanalytic Pioneers (71770)
Edited by Franz Alexander, Samuel Eisenstein and Martin Grotjahn
A history of psychoanalysis seen through the lives and works of its most eminent teachers, thinkers, and clinicians. Among them: Jung, Rank, Melanie Klein, Karen Horney, Hartmann, Reich, Erikson, and Adler. "A virtual encyclopedia of psychoanalysis."—*Benjamin B. Wolman*
Retail price \$15.00 Member's price \$9.95

***Psychoanalysis, Psychiatry, and Law**
Edited by Jay Katz, Joseph Goldstein and Alan M. Dershowitz (71500)
Essentially two books in one: "Psychoanalysis and Law"—a detailed study of psychoanalytic theory and its relevance to a wide variety of legal issues; and "Law and Psychiatry"—an examination of the legal processes involved in invoking and administering mental health laws. Encyclopedic in scope and authority.
Retail price \$18.50 Member's price \$12.75

Children of Crisis (37900)
By Robert Coles, M.D.
A brilliant examination of the psychological effects on the participants—both white and Negro—of the school desegregation struggle in the South. Reveals the effects of stress on children, examines the psychological meaning of race and prejudice, and indicates the role of social crisis in individual lives. "A major accomplishment."—*Oscar Lewis*
Retail price \$8.50 Member's price \$6.75

Theory of Suicide (83860)
By Maurice L. Farber
A bold and highly successful attempt to develop a general theory of suicide—one that isolates the essential factors both within the individual and in his social setting. Offers valuable guides to suicide prevention.
Retail price \$5.95 Member's price \$5.25

Chronic Psychoses and Recovery (37950)
By Richard Sanders, Robert S. Smith and Bernard S. Weinman
A well-planned, highly effective study that argues for a social-educational therapy model for chronic psychotics in place of the traditional medical model prevalent in most mental hospitals. Challenges many accepted concepts regarding chronic schizophrenics.
Retail price \$10.00 Member's price \$7.50

A Decade Later: A Follow-up of "Social Class and Mental Illness" (41920)
By Jerome K. Myers and Lee L. Bean, in Collaboration with Max P. Pepper
Ten years after Hollingshead and Redlich's celebrated work, this book—a brilliant study in its own right—illuminates the long-range effects of class and social factors on the outcome of treatment and how former patients adjust in the community.
Retail price \$7.95 Member's price \$6.25

Changing Perspectives in Mental Illness (37440)
Edited by Stanley C. Plog and Robert B. Edgerton
Featuring cross-cultural and cross-disciplinary points of view, these lively, original studies raise pertinent questions on many currently accepted theories of mental health and illness. "The best collection I know of statements about the field of culture in relation to mental illness."—*Max Pepper, M.D.*
Retail price \$15.00 Member's price \$9.95

Annual Progress in Child Psychiatry and Child Development 1969 (33960)
Edited by Stella Chess, M.D. and Alexander Thomas, M.D.

The second volume in this most useful series assembles the year's outstanding contributions to the understanding and treatment of the normal and disturbed child, in a wide-ranging, essential source book.
 Retail price \$15.00 Member's price \$10.50

Annual Progress in Child Psychiatry and Child Development, 1968 (33980)
Edited by Stella Chess, M.D. and Alexander Thomas, M.D.

The first in a series of annual volumes, this remarkably useful and stimulating collection of articles is designed to enable professionals to keep abreast of the most significant and valuable work in every aspect of the normal and disturbed child.
 Retail price \$15.00 Member's price \$10.50

Studies in Cognitive Growth/Toward a Theory of Instruction (80990)
A Dual Selection

Jerome S. Bruner and his associates offer a brilliant exposition of theoretical and practical learning, exploring the development of human cognitive functioning, the interdependence of intelligence and culture, the educative process as a force in growth, etc.
 Retail price \$11.90 Member's price \$8.75

The Firstborn: Experiences of Eight American Families (48610)
By Milton J. E. Senn and Claire Hartford

A compelling study which describes and interprets what happens to representative American families with the birth of their first child, and how early family experiences affect the personality of the firstborn. An intimate view of day-to-day family living.

Retail price \$10.00 Member's price \$7.50

Six Psychological Studies/Young Children's Thinking (78380)
A Dual Selection

Jean Piaget's seminal ideas on the genesis and growth of logical thought, edited and introduced by David Elkind. Plus Millie Almy's application of Piaget's work to contemporary issues in American education, examining the pedagogic implications of his theories.

Retail price \$10.20 Member's price \$7.50

Personality Development at Preadolescence/Normal Adolescence
A Dual Selection (68420)

A study, by Riley W. Gardner and Alice Moriarty, of preadolescent individuality, approaching the problem of personality organization in terms of the nature of structure formation. Plus an excellent summary of the main issues of adolescence as a stage of development, by the GAP Committee on Adolescence.

Retail price \$13.45 Member's price \$8.75

The Psychoanalytic Study of the Child

An indispensable series, highlighting the significant trends in child development and therapy. The latest volume contains contributions by Anna Freud, Phyllis Greenacre, Seymour L. Lustman, Humberto Nagera, Moses Laufer, Peter Blos, etc.

Volume XXIII (1968 Edition) (71940)
 Retail price \$12.00 Member's price \$8.95

Volume XXII (1967 Edition) (71930)
 Retail price \$12.00 Member's price \$8.95

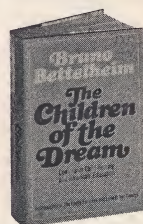

Volume XXI (1966 Edition) (71920)
 Retail price \$12.00 Member's price \$8.95

Studies in Cognitive Development: Essays in Honor of Jean Piaget (81000)

Edited by David Elkind and John H. Flavell

Original papers revealing the major directions American psychologists who have been influenced by Piaget are taking in their conceptualizations and research.

Retail price \$10.00 Member's price \$7.50

The Children of the Dream (37830)
By Bruno Bettelheim

Dr. Bettelheim's study of kibbutz children from birth through adolescence dispels the myth that a mother or mother-figure is essential to the emotional well-being of a child. Has tremendous implications for our own child-development theories and child-rearing practices.

Retail price \$6.95 Member's price \$5.50

Logical Thinking in Children (58810)
Edited by I. E. Sigel and F. H. Hooper

Based on Jean Piaget's developmental theory of cognition, this series of research articles reflects the resurgence of interest in the cognitive processes of children. "... will prove to be of the utmost benefit to psychologists all over the world."—Bärbel Inhelder, University of Geneva

Retail price \$7.95 Member's price \$6.50

Psychopathology of Childhood (72870)
By Jane W. Kessler

An exhaustive examination of the origin, manifestation, and treatment of deviant behavior in childhood. Extremely broad in scope, it uses the case approach to deal with behavior problems at all levels of seriousness, from feeding difficulties to psychoses.

Retail price \$11.00 Member's price \$8.25

The Empty Fortress (44680)
By Bruno Bettelheim

A major work on childhood autism. Bettelheim discusses the birth of the self, the beginnings of the human mind, and the roots of pathology. "Significant to the work of others, who work with less difficult 'problems,' or study the way normal children grow and learn."—Robert Coles, M.D.

Retail price \$9.95 Member's price \$7.50

On Human Symbiosis and the Vicissitudes of Individuation
Volume I: Infantile Psychosis (65630)

By Margaret S. Mahler

A comprehensive presentation of Dr. Mahler's views on the nature and treatment of childhood psychosis. Develops the thesis that infantile psychosis has its roots in severe distortions of normal symbiosis, and presents a unique therapeutic approach.

Retail price \$7.00 Member's price \$5.95

Piaget and Knowledge: Theoretical Foundations (69180)
By Hans G. Furth

In this unified approach to Piagetian theory, Hans G. Furth examines and interprets Piaget's main concepts, focusing on the five major themes of operative, symbolic and figurative knowing, biology, and equilibration.

Retail price \$7.95 Member's price \$6.50

The Roots of Individuality (74380)
By Sibylle K. Escalona

This study of early human development and the origins of individual differences will have a presiding influence on practice and research for many years to come. "A remarkable job of relating overt behavioral phenomena to meaningful theoretical dimensions."—Leslie F. Malpass, Virginia Polytechnic Institute

Retail price \$14.75 Member's price \$9.95

Identity: Youth and Crisis (54960)
By Erik H. Erikson

Erikson's major work of the last two decades is summarized in this magnificent new book, providing us "with a living picture of man in the perspective of history, his individual own as well as that of his cultural traditions."—Nathaniel Ross, M.D.

Retail price \$6.95 Member's price \$5.75

When We Deal with Children (86860)
By Fritz Redl

Important, thoughtful, sometimes blunt writings on the difficulties of being young and growing up—with outspoken appraisal of how adults fail children who look to them for help in the family, the schools, and the service fields.

Retail price \$8.95 Member's price \$6.95

The Therapeutic Nursery School
Edited by Robert A. Furman, M.D. and Anny Katan, M.D. (84110)

The first comprehensive presentation of the philosophy and specific techniques of an unusual approach to treating the disturbed preschool child—"treatment via the mother." Offers a practical method for breaking down the boundaries that separate the roles of therapist, teachers, and parents.

Retail price \$10.00 Member's price \$7.50

Theories of Child Development (82920)
By Alfred L. Baldwin

Systematic study of seven theoretical perspectives of child development: Heider's naive psychology, Lewin's field theory, Piaget's genetic psychology, Freudian theory, Werner's developmental psychology, S-R theories, and the sociological view of Parsons and Bates.

Retail price \$8.95 Member's price \$7.25

Schizophrenia in Children (75340)

By J. Louise Despert

A collection of Dr. Despert's pertinent publications since 1937. "What impresses one . . . is the persistent emphasis on factual data, on the absence of dogmatism, on a truly scientific study of perceived phenomena and their correlations . . . An authoritative textbook of childhood schizophrenia."—Leo Kanner, M.D.

Retail price \$6.95 Member's price \$5.75

Language Learning and Communication Disorders in Children (57710)

By Gertrud L. Wyatt

A gold mine of dynamic interdisciplinary information on the diagnostic and therapeutic techniques for the successful treatment of the child with language disturbance. Stresses the pivotal role of adult-child verbal interaction in the development of language skills.

Retail price \$11.50 Member's price \$7.95

Tests and Measurement

***Objective Personality and Motivation Tests (65190)**

By Raymond B. Cattell and Frank W. Warburton

This prodigious two-part volume discusses the theoretical basis and nature of objective personality tests, and offers a useful compendium of more than four hundred such tests. "A major contribution."—John D. Hundleby

Retail price \$20.00 Member's price \$14.95

Experiential Foundations of Rorschach's Test (46960)

By Ernest G. Schachtel

A brilliant contribution to the theory and clinical application of the Rorschach and to an understanding of the relationship between personality, significant personal attitudes and perception. "Scholarly, thoughtful, original . . . nothing compares to it."—David Ricks, Columbia University

Retail price \$7.95 Member's price \$6.25

Diagnostic Psychological Testing (42180)

By David Rapaport, Merton M. Gill and Roy Schafer

The classic work, thoroughly revised and brought up to date by Robert R. Holt. "... a focused and theoretically oriented handbook of diagnostic psychological testing that is a highly valuable contribution."—Lawrence E. Abt

Retail price \$15.00 Member's price \$11.75

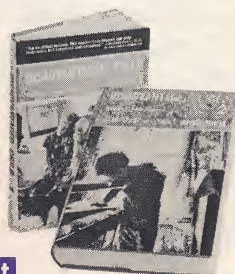

***Disadvantaged Child (42400)**

A two-volume set

Edited by Jerome Hellmuth

A widely praised, comprehensive collection of the most relevant interdisciplinary research on the relationship of poverty to the intellectual development of the preschool child. "The reader will find himself not only instructed, but surprised and refreshed."—Robert Coles, M.D.

Retail price \$25.00 Member's price \$17.50

Psychometric Theory (72860)

By Jum Nunnally

A systematic overview of measurement theory in psychology, including comprehensive coverage of the logic of psychological measurement, scaling models, statistical methods, construction and validation of measures, and methods of multivariate analysis.

Retail price \$12.95 Member's price \$8.50

Student's Rorschach Manual (80970)

By Robert M. Allen

A perceptive introduction to basic Rorschach test administration and interpretation. Examines the test technique in view of recent developments in personality theory and the findings of current research.

Retail price \$7.00 Member's price \$5.75

The Zulliger Individual and Group Test (88800)

By Hans Zulliger

Edited by Fritz Salomon

Here, in its first English translation, is the work of the late Hans Zulliger, one of Rorschach's outstanding students. Deriving from the Rorschach, the Zulliger test is based on an improved conceptual framework expressed in terms of concrete, observable behavior. "One of the most instructive books in the field."—Zygmunt A. Piotrowski

Retail price \$15.00 Member's price \$9.95

TITLES MARKED WITH AN ASTERISK (*) ARE NOT AVAILABLE AS FREE BOOKS.

The Uses of Sociology (85730)

Edited by Paul F. Lazarsfeld,

William H. Sewell and Harold L. Wilensky

In this up-to-date, comprehensive work, sponsored by the American Sociological Association, forty-one distinguished contributors explore the practical role of sociology in virtually every area of modern life.

Retail price \$15.00 Member's price \$10.95

A Time to Speak: On Human Values and Social Research (84330)

By Herbert C. Kelman

An eloquent plea for the rational solution of social problems—in a manner consistent with human freedom and dignity. Clarifies the role of the social scientist in socially meaningful areas, the limitations and dangers inherent in that role, and the great promise for positive contribution.

Retail price \$9.50 Member's price \$7.25

Our Criminal Society (66550)

By Edwin M. Schur

An eminent sociologist challenges the concept of a "war against crime" as costly and meaningless, in a society which is in itself criminal. He brilliantly documents the need for relief of social and economic pressures which lead to crime, and demands new, workable definitions of criminality.

Retail price \$6.95 Member's price \$5.75

Maximum Feasible Misunderstanding (61611)

By Daniel P. Moynihan

The author of the celebrated *Moynihan Report*—one of the framers of the Johnson Administration's legislation in the war on poverty and now Special Assistant to Urban Affairs in the Nixon Administration—offers an eye-opening look at what went wrong and why in the community action programs.

Retail price \$5.95 Member's price \$5.25

Critics of Society/The Sociology of Marx (41030)

A Dual Selection

Two important contributions to social theory and social criticism. T. B. Bottomore surveys the delicate relationship between social criticism and the progress of social movements. Plus Henri Lefebvre analyzes the contemporary relevance of the Marxian theory of society.

Retail price \$10.90 Member's price \$7.95

The Conflict of Generations (40190)

By Lewis S. Feuer

A carefully researched, highly readable, provocative study of the history and meaning of student dissidence from the earliest centuries to the present. Offers an indispensable key for gaining an understanding of what brings about student rebellions and how to cope with them.

Retail price \$12.50 Member's price \$8.50

The Active Society (32040)

By Amitai Etzioni

A timely and provocative book depicting the "active society" as one that is responsive to its changing membership and engaged in perpetual self-transformation. Combines political and sociological analytic perspectives with a historical approach.

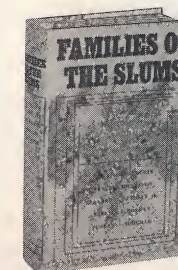

Retail price \$11.95 Member's price \$8.50

Sickness and Society (78310)

By R. S. Duff and A. B. Hollingshead

A painstaking, objective, and methodologically sophisticated sociological study—a profoundly shocking indictment of medical practice in the hospital. "I don't think that anyone concerned with medical care can afford to ignore this excellent work."—Otto A. Will, Jr., M.D., Medical Director, Austen Riggs Center

Retail price \$12.50 Member's price \$8.75

Families of the Slums (48180)

By S. Minuchin, B. Montalvo, B. Guernsey, Jr., B. Rosman, F. Schumer

Presents an original theory of the special dynamics of the slum family—its structure and internal processes, the communicative and affective styles of its members—and offers a new approach to therapeutic strategy. "Will unquestionably have a far-reaching influence . . ."—Family Life

Retail price \$10.00 Member's price \$7.50

Contemporary Social Problems (40360)
Edited by Robert K. Merton and Robert A. Nisbet

Masterly analyses of the crucial problems of deviant behavior and social disorganization as they affect society and sociology. A concise and comprehensive overview of the major social problems of our day.

Retail price \$9.75 Member's price \$7.50

Delinquency, Crime and Social Process
Edited by Donald R. Cressey (41910) and David A. Ward

The most comprehensive collection of papers on the causes and character of crime and delinquency ever assembled in one volume. "Excellent reference for anyone interested in the problems of criminal and delinquent behavior."—Wayne L. Cotton

Retail price \$12.50 Member's price \$8.95

The Rise of Anthropological Theory
By Marvin Harris (74180)

A critical evaluation of the shifting viewpoints in anthropological theory. "... provides all of us with an opportunity to evaluate both the ends and means of our work."—Eric R. Wolf, *University of Michigan*

Retail price \$16.50 Member's price \$8.95

The Psychosocial Interior of the Family (72960)
Edited by Gerald Handel

The first composite view of the whole family and the complex interplay between self and collectivity in family life. Draws upon findings from many disciplines, including sociology, psychiatry, social psychology, and anthropology.

Retail price \$10.75 Member's price \$7.95

Gardens of War: Life and Death in the New Guinea Stone Age (50190)

By Robert Gardner and Karl G. Heider
Introduction by Margaret Mead

Michael Rockefeller disappeared on the expedition which captured in word and picture this amazing record of a way of life about to vanish. With 337 stunning photographs of the Stone Age tribesmen's culture, this work is certain to become an anthropological classic. "It is unique."—Margaret Mead

Retail price \$15.00 Member's price \$9.95

Brief and Extended Casework (36820)

By William J. Reid and Ann W. Shyne

Reports on a four-year research project assessing the outcomes and effectiveness of short-term treatment as against continued service, open-ended as to time, as modes of casework for interpersonal problems.

Retail price \$7.50 Member's price \$5.95

The Non-Verbal Method in Working with Groups (64760)

By Ruth R. Middleman

Authoritative guide to the key concepts and techniques in using nonverbal communication in social group work. "Timely and should be widely used."—Gisela Konopka, *University of Minnesota*

Retail price \$6.95 Member's price \$5.75

Differential Diagnosis and Treatment in Social Work (42160)

Edited by Francis J. Turner

A most useful collection of articles on recent advances in the diagnostic process in social work. Highlights the necessity of improved diagnostic habits among practitioners and bridges the gap between theory and practice in social work.

Retail price \$13.95 Member's price \$9.95

Psychiatric Social Work (70950)

By Roy R. Grinker & Associates

A major work on the "transactional approach" to the psychotherapeutic relationship—with critical examinations of actual interviews and a session-by-session, 138-page summary of a complete course of therapy.

Retail price \$7.50 Member's price \$6.25

Theory of Social Work Practice (83820)

By Ruth Elizabeth Smalley

Clarifies the nature of social work process and the phenomena with which it deals. Discusses at length the "functional" as well as the "diagnostic" schools of thought, and proposes a unifying theoretical foundation for social work based on the author's extensive experience.

Retail price \$7.50 Member's price \$5.95

Human Sexuality (54090)

By James Leslie McCrary

An internationally recognized authority on sex education presents detailed, accurate information on all aspects of human sexual behavior. "Beyond question the best single reference in this area I have yet seen."—Armin Grams, *Merrill-Palmer Institute*

Retail price \$9.75 Member's price \$6.50

The Person: His Development Throughout the Life Cycle (68540)

By Theodore Lidz

Traces the development of the person from infancy to old age and death. Draws upon the insights of dynamic psychiatry, the cognitive theories of Piaget, and the findings of the biological, cultural, and behavioral sciences to present a unified picture of personality.

Retail price \$10.00 Member's price \$7.50

Work and Human Behavior (87400)

By Walter S. Neff

"A highly relevant book ... Neff has identified the features within the person and the environment that determine the individual's work behavior ... appears to have immediate practical application."—Harold Wilensky, *City College of The City University of New York*

Retail price \$8.50 Member's price \$6.75

The Psychological Dimension of Foreign Policy (72660)

By Joseph de Rivera

Using actual historical events as data and textual vehicle, the author analyzes in detail the psychological aspects of foreign policy decision-making.

Retail price \$7.95 Member's price \$6.50

Behavior Control/Physical Control of the Mind (35820)

A Dual Selection

Two complementary works dedicated to an evaluation of the methods and ethical problems involved in behavior control. Perry London lucidly examines all aspects of control in relation to individual freedom. Plus José Delgado relates electrical stimulation of the brain to the fascinating central question: What is mind?

Retail price \$14.90 Member's price \$9.75

The Nature of Human Intelligence
By J. P. Guilford (63920)

A highly original work which creates a comprehensive and systematic theoretical foundation for the concept of intelligence. Outlines and develops a theory of "the structure of intellect," giving considerable attention to the theory and findings of Jean Piaget.

Retail price \$14.75 Member's price \$10.95

The Nature of Perceptual Adaptation
By Irvin Rock (63940)

A thorough, authoritative presentation of the findings in this new and rapidly growing area of perceptual study. "The only existing comprehensive organization of research and theory in this area ... an excellent job."—Leon Festinger, *Stanford University*

Retail price \$8.50 Member's price \$6.75

Cognition, Personality, and Clinical Psychology (39140)

Edited by R. Jessor and S. Feshbach

A collection of original papers addressed to the implications of recent developments in cognition for research and theory in personality and psychopathology. Ranges from a major revision of the psychoanalytic theory of motivation to the testing of a model of the forces binding people together in functional social relationships.

Retail price \$8.50 Member's price \$6.75

The Psychology of Hope (72780)
By Ezra Stotland

A dynamic and systematic new approach which explores hope objectively in relation to action, anxiety, motivation, performance level, expectation, level of aspiration, and persistence in the face of failure or pain. Presents a wide range of data from clinical, social, and experimental studies.

Retail price \$8.75 Member's price \$6.95

An Analysis of Personality Theories
By Albert Mehrabian (33410)

A significant breakthrough in formulating a conceptual framework within which theories of personality may be developed and assessed. A useful guide to understanding the fundamentals of personality theory and their implications for influencing behavior and for research.

Retail price \$8.75 Member's price \$6.95

Learning, Language, and Cognition

By Arthur W. Staats (58080)

"Intensely interesting . . . Tries to show clearly, and by reference to a large body of empirical evidence, that language and cognition . . . follow the same laws, and evidence the same rules, as other forms of learning and conditioning. A genuine and important contribution."—H. J. Eysenck, *University of London*

Retail price \$9.50 Member's price \$7.50

Altered States of Consciousness (32520)

Edited by Charles T. Tart

Presents major theoretical and research contributions on this neglected but significant subject. Focuses on such topics as hypnagogic states, dreams, hypnosis, psychedelic drugs, meditation, and the psychophysiology of altered states of consciousness.

Retail price \$9.95 Member's price \$7.50

Ecological Psychology (43360)

By Roger G. Barker

A pioneering work on the relationship between human behavior and the environment in which it occurs. Demonstrates how to define the structural characteristics of "behavior settings." This is a book of fundamental importance to the behavioral sciences.

Retail price \$7.50 Member's price \$5.95

The Hypnotic Investigation of Dreams

By C. Scott Moss (54370)

This authoritative volume presents a thorough survey and critical evaluation of the clinical and experimental findings regarding the uses of hypnosis in the study of dreams. Includes reprints of the dozen most important studies on the subject.

Retail price \$8.00 Member's price \$6.25

Organization and Pathology of Thought

Edited by David Rapaport (66150)

The 786-page modern classic that brings together 27 major writings on human thought processes. Studies of consciousness, remembering, forgetting, perceiving, hallucinations, creative thinking of all kinds.

Retail price \$15.00 Member's price \$9.95

Feminine Psychology

(48390)

By Karen Horney

Dr. Horney's views on the psychology of women, compiled for the first time. Among the topics discussed are frigidity, distrust between the sexes, genital anxieties, maternal conflicts, etc. "Karen Horney at her best."—Martin Grotjahn, *M.D.*

Retail price \$5.95 Member's price \$5.25

Pragmatics of Human Communication

By Paul Watzlawick, Janet Helmick Beavin and Don D. Jackson (69740)

Using an eclectic approach drawn from psychoanalysis and information theory, this book provides a systematic basis for categorizing the give-and-take of communication. A superb study by the Palo Alto group into the characteristics of human communication and their manifestations and potential pathologies.

Retail price \$10.00 Member's price \$7.50

Homosexual Behavior Among Males

By Wainwright Churchill (53540)

A thorough and objective investigation that is at once a history, a work of psychiatric research, a sociological study, and an appeal for tolerance. Discusses male homosexual activity in animals, in other cultures, and in past history in order to clarify many misconceptions. "Original and important."—Ashley Montagu

Retail price \$7.95 Member's price \$6.25

Clinical Psychology and Personality:**The Selected Papers of George Kelly**

Edited by Brendan Maher (38550)

These essays, by the author of *The Psychology of Personal Constructs*, further reflect his originality and incisiveness, and his commitment to social values and the sanctity of the individual. Within this framework, topics dealt with are methodology, research and theory, personality, and therapy processes.

Retail price \$8.95 Member's price \$6.95

***The Collected Papers of David Rapaport**

(39000)

Edited by Merton M. Gill

The writings of one of America's most influential psychologists and psychoanalytic theorists—including previously unpublished papers on a broad spectrum of topics . . . "of the greatest interest not only to psychoanalysts but to behavioral scientists generally."

—Robert R. Holt

Retail price \$17.50 Member's price \$12.95

***American Handbook of Psychiatry Volume III**

(32900)

Edited by Silvano Arieti, *M.D.*

The third volume of an indispensable series in the theory and practice of modern psychiatry rounds out "the single best reference source for all the mental health professions . . . Encyclopedic information in an updated form . . . a model of concise, lucid, authoritative opinion."—Harold P. Rome, *M.D.*

Retail price \$20.00 Member's price \$14.95

Interdisciplinary Relationships in the Social Sciences

(55960)

Edited by Muzafer Sherif and Carolyn W. Sherif

Twenty eminent social scientists—psychologists, sociologists, anthropologists, political scientists, historians, economists, and others—demonstrate effective means of achieving interdisciplinary coordination in studying human behavior.

Retail price \$9.75 Member's price \$7.25

Violent Men/Human Aggression

A Dual Selection (85840)

Hans Toch's brilliant study of violence—including a typology of the violent-prone person and the anatomy of violent situations. Plus Anthony Storr's lucid investigation of aggression as an instinct, and the part it plays in development, in the sexual life, in psychopathology, and in social structure.

Retail price \$12.50 Member's price \$8.95

***The Collected Works of Karen Horney**

Two volumes, boxed (39450)

The five major works of the influential figure who has had a lasting impact on psychoanalysis and psychology. These works reflect the full scope of Dr. Horney's provocative restatement of Freudian theory.

Retail price \$23.50 Member's price \$12.95

(50270)

A Dual Selection

Two distinguished works—by Ludwig von Bertalanffy and Arthur Koestler, respectively—that provide an authoritative introduction to systems theory, an increasingly influential approach to a unified study of man.

Retail price \$15.90 Member's price \$9.50

MINUTES OF THE VIENNA PSYCHOANALYTIC SOCIETY Volumes I and II

Edited by Herman Nunberg and Ernst Federn

Translated by M. Nunberg

(62740)

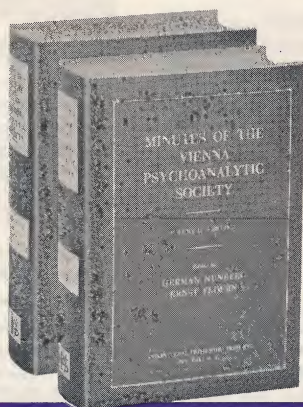

The first two volumes of the planned three-volume complete (1906-1915) MINUTES OF THE VIENNA PSYCHOANALYTIC SOCIETY (Volume III is still in preparation). Volumes I and II, covering the period from 1906 through 1910, offer an exceptional view of the development of psychoanalytic thinking in its early days. Recorded by Otto Rank in faithful detail, the MINUTES vividly recreate the lively discussions of such notable participants as Wilhelm Stekel, Alfred Adler, Fritz Wittels, Edward Hitschmann, Paul Federn, and, of course, Professor Freud.

"The MINUTES will belong to the great books of psychoanalysis."

—Journal of the Hillside Hospital

"The entire series promises to be a great historical document of unique importance . . . enjoyable, well-organized, and eminently readable . . . should serve as a renewed stimulation to every student of psychoanalysis, and to any reader interested in the history of ideas."

—Psychoanalytic Quarterly

**Minutes of the Vienna Psychoanalytic Society

Not available as free books

The Main Selection

Revised, enlarged
Fourth Edition
of the celebrated

Psy'chi·at'ric Dictionary

The most renowned reference work of its kind since its initial appearance, PSYCHIATRIC DICTIONARY—now available in a brand-new Fourth Edition especially revised and designed to meet the needs of behavioral scientists in the 1970's—continues its exemplary tradition of presenting vital historical and current source material in easy-to-read and concise yet informative terms.

This new volume, which supersedes the Third Edition of 1960, reflects the rapid growth of knowledge during the last decade and the diversity and range of interests within the psychiatric and related sciences. The Fourth Edition has been expanded now to include such significant advances and altered perspectives as:

- community and social psychiatry
- crisis intervention, brief therapy and behavior theory
- genetic research and recent discoveries
- protein chemistry, enzyme action, and immunity
- differentiation of various types of mental retardation, rehabilitation, and social therapy
- primary prevention of mental disorder
- drug dependency and drug abuse
- psychopharmacology, including tranquilizers, thymoleptics, and lithium
- the neurophysiology of sleep, dreaming, learning, and memory
- developmental studies

Here it all is—conveniently arranged to serve as a quick guide and an invaluable source of information on *all* schools of psychiatry and psychology and allied fields: key concepts from psychoanalysis, psychology, neurology, social work, genetics and eugenics, sociology, psychosomatic medicine, nursing and occupational therapy, child psychiatry, adolescent psychology, group and short-term therapy, and modifications of classic analytic technique—all clearly defined and often presented in narrative form; the leading figures and pertinent literature; the major movements, fully detailed, and important minor departures, adequately cross-referenced to place them in their proper context; exhaustive coverage of historical data as well as new dimensions and latest developments.

Completely up to date, encyclopedic in scope, and interdisciplinary in approach, PSYCHIATRIC DICTIONARY is still by far the best, most comprehensive and authoritative one-volume reference work in its field.

"The concern about mental health issues and delivery of health services that gripped the nation as a whole in the 1960's forced new perspectives in psychiatry that were not confined to the theorist. Clinician and program planner, educator and student, administrator and researcher—all were affected by an infusion of concepts and models derived from other branches of medicine and other fields of knowledge. Each of them often carried its own vocabulary, syntax, and grammar as it entered the arena of mental health, which remains no longer the exclusive domain of psychiatry. Each of them, too, has tended to question the relevance and practicality of some of psychiatry's traditions and customs, and has thus engendered a reappraisal of theories whose age, rather than merit, has transmuted into doctrine and dogma.

"The Editors' decision to include, or exclude, any entry has been guided by several factors, including clinical relevance; the frequency with which items recur in general texts and in psychiatric journals; and the degree to which a new concept or method appears to have received confirmation in subsequent investigations."

- 928 large-size, double-column pages
- 9,700 listings

critical acclaim for PSYCHIATRIC DICTIONARY from diverse sources—

"The presentations are concise and comprehensive; the use in an entry of textual excerpts from a work basic to the point in question is a highly useful feature. Students and workers in all departments of the mental sciences will find themselves indebted to the authors of this excellent work. It is a work which no working student of the field of human behavior...can afford to be without."

—PSYCHOANALYTIC REVIEW

"Looms up as more than a reference book or a book of mere words. It is an archive, in which many main-line phrases and side issues of psychiatry come to evidence and receive permanent record in compact form...An extremely valuable addition to a working library."

—MENTAL HYGIENE

"Succinct, comprehensive and of utmost usefulness. While brevity has been a stated aim, many of the articles are necessarily of an encyclopedic character, with the result that there is provided for each of the divisions of the whole subject a reference work of both definitive and historical value."

—JOURNAL OF NERVOUS AND MENTAL DISEASE

"Unlike any other dictionary, it attempts to give an encyclopedic discussion of many of the listings. It occupies a unique place in the literature for this reason and is therefore useful to the social scientist of any discipline."

**—INTERNATIONAL JOURNAL OF SOCIAL
PSYCHIATRY**
